# Triad Construction Honored for Creative Excellence

**West Allis, WI** – Triad Construction was recently honored by Milwaukee Mayor Tom Barrett for creative excellence. Barrett presented the Mayor’s Design Awards for 30 construction projects that contributed positively to Milwaukee’s urban landscape. The awards reception was held Thursday, May 28th, at the University of Wisconsin-Milwaukee’s School of Architecture and Urban Planning.

The project for which Triad Construction was honored was Bay View spa Actaea Works. For this project, Triad Construction took a Victorian home, set back from the street, and brought it into the Kinnickinnic Avenue business district with a contemporary addition. The addition was outfitted with state-of-the-art spa stations, retail space, and waiting area. Renovations were also completed to reconfigure the Victorian from a residence into a spa. Massage, manicure, and pedicure stations were added as well as a dressing room and shower area.

Triad Construction is a general contractor specializing in commercial construction. We make it a priority to understand customers’ needs. For more information, please contact us or visit [www.triadgc.com](http://www.triadgc.com).
