## Triad Construction Earns Safety Award

**West Allis, WI** – Triad Construction Inc. was recently presented with the *ACUITY* Safety Award for businesses that ensure a safe workplace for their employees. Evaluations for safety are not made on incidence rates, but on the frequency and severity of accidents compared within the construction industry.

“At Triad, we pride ourselves on keeping our employees’ best interests at heart, and an important part of that is safety,” says Triad Construction Executive Vice President Mike Long. “We’re pleased that our excellent record for workplace safety has been recognized.”

The plaque was presented to Long and Triad President Werner Holentunder by *ACUITY* Senior Loss Control Representative Andy Hughes.

“*ACUITY*’s largest segment of business is contractors...not all are so dedicated to safety as [Triad],” says Hughes of his company’s selection of Triad for the safety award.

*ACUITY*, headquartered in Sheboygan, Wisconsin, is a property and casualty insurer that operates in eighteen states, writes \$800 million in premium through more than 900 independent agencies, and manages \$2 billion in assets.

Triad Construction Inc. is a general contractor specializing in commercial construction that makes it a priority to understand customers' needs. Triad Construction has a strong history of work on new buildings, building additions, and renovations in order to meet the changing needs of the community.
